President's Note

Greetings,

As we begin 2024, we continue to give thanks for our health, the health of our families, all our employees and their families, the health of all the specialty food community and the United States of America.

Looking back on the challenging year of 2023, the sun has started to shine in specialty food! The logistic problems that we faced in 2022 have improved dramatically. The cost of Ocean freight has returned to almost pre covid levels. The cost of raw materials is still high but has been partially offset by the lower cost of freight. Prices increase for 2024 will be much lower.

We exhibited in the Winter Fancy Food Show in Las Vegas, the Summer Fancy Food show in New York and attended the Anuga International Fair in Cologne Germany. The attendance was very large and generated lots of positive energy. The Specialty Food world is returning to normal. We met with new vendors with some exciting new products to add to our assortment.

As we look ahead for 2024, we look ahead with hope that the winds of change will continue, and the rays of normality will continue to shine in the coming year.

We at Lettieri have been blessed to work in an industry that helps to feed our local, regional, and national communities. We are dedicated to finding these special items, as showcased in our catalog, to bring to your table.

We thank you for your business and wish you, health and success in the coming year.

Warmest Regards,
Francesco Lettieri, President & Founder

The Founder

Francesco Lettieri has a passion for food. Born in Calabria and raised in Chicago, Francesco was surrounded by homemade Italian food growing up, and always had the dream of entering the gourmet food business. He moved to San Francisco in 1973 and opened a small sandwich shop, called Mr. Submarine in the Marina neighborhood. Mr. Submarine was a success and the business quickly grew to 7 locations. In 1986 he sold the chain, and in 1988 officially opened Lettieri & Co. Francesco's dream of importing finely crafted food and wine from Italy and around the world had been realized. Throughout the years, the company has grown in size and now carries over 75 lines of imported goods. His passion for food has not faded a bit. Francesco still travels the world, finding hidden culinary gems to bring to your retail store and food-service business.

The Future

Along the way, Francesco and his wife Nevenka had two sons, Antonio and Dino. Both sons have been learning the food importing and distribution business from an early age and are excited to continue to grow the family business. Dino's outgoing personality made him a natural fit for sales, and he is now the Director of Sales and Marketing at Lettieri & Co. Tony's knack for finding new and exciting products along with his broad based knowledge of the operations of the company lends itself perfectly to his position as Chief Operating Officer. With a solid base of well-established contacts around the world, and a new generation of Lettieri's poised to grow the business, the future looks bright for Lettieri & Co!

**MADE BY CRAFTSMEN
USING
ROUGH-EDGED BRONZE DIES...**

**...AND DRIED
AT LOW TEMPERATURES.**

The Cav. Giuseppe Cocco Artisanal Pasta Factory is in Fara San Martino, a village located on the slopes of the Maiella mountains in Abruzzo and better known as the "Pasta Capital".

The pasta factory has its roots in a longstanding **family tradition** in the pasta production and still today uses exclusively **ancient machinery** for production. The Cav. Giuseppe Cocco taught his children and grandchildren that in order to make an outstanding pasta you need four ingredients: extraordinary quality wheat, water from the springs of the Verde River, the air of Fara San Martino and the Ancient Processing, the one made with the original and precious machinery of the past.

Even today, in the Cav. Giuseppe Cocco Artisanal Pasta Factory, pasta is produced in small quantities, slowly kneading the coarse-grained semolina with cold spring water in the ancient mixers, using only **rough bronze dies**. Thanks to the **static drying at low temperature** for a long time, all the nutritional qualities remain intact, together with the genuine taste of the old times.

The pasta factory produces more than 100 pasta shapes of different types and ingredients: in addition to semolina pasta and egg pasta, it produces durum wheat semolina pasta with bran, stone-milled organic whole wheat pasta from Senatore Cappelli heritage wheat and spelt, saffron pasta and organic semolina pasta. The pasta is prized all over the world for its flavour, toughness and excellent cooking properties.

The world's best lingonberries grow wild in northern Scandinavia. Only selected fruits from this region make the grade as Darbo lingonberries. The delicately dry flavor of Darbo lingonberries adds that special touch to exquisite game dishes and Viennese schnitzel.

What is Novello?

Novello, Italian for “new”, is the name given to early harvest extra virgin olive oil that is **freshly pressed from green olives** and is a celebration of the beginning of the olive harvest season.

Intensely Fresh

Novello is totally **unfiltered** with intensely fresh, fruity aromas predominant of green olives, fresh cut grass and herbs. Its flavor is robust and spicy with a pleasant, slightly bitter finish.

A seductive taste.

Naturally, the secret of the best jams is no secret, but given by nature. It needs no more than first-class fruit and knowing how to process that fruit carefully, which has always been passed on and perfected at Darbo from generation to generation. And that's something you can taste too. Let yourself be seduced by the exquisite taste of Darbo.
